LinkedIn: [linkedin.com/in/ruby-devi-303645172](https://www.linkedin.com/in/ruby-devi-303645172)

Frontend Developer with 3+ years of experience in building high-performance web applications using React.js, Next.js, and TypeScript. Skilled in UI/UX optimization, API integration, and state management (Redux), improving performance and user engagement. Proven ability to enhance page speed, optimize responsiveness, and deliver scalable solutions while collaborating with cross-functional teams.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS

Frameworks & Libraries: React.js, Next.js, Material-UI, Bootstrap, Tailwind CSS, Redux, React Router, Axios, Chart.js, Express.js

Development Tools: Git, GitHub, VS Code, PageSpeed Insights, Chrome DevTools

Other Skills: Responsive Design, State Management, Component-Based Architecture, Cross-Browser Compatibility, API Integration, and Performance Optimization

Experience

Quantmhill – IT Services and Consultancy

Frontend Developer (June 2023 – Present, Noida, India | Remote)

- Translated Figma design mockups into pixel-perfect, responsive UI components, ensuring seamless user experience.
- Engineered dynamic, high performance user interfaces with React.js and Next.js, improving component reusability by 40% and reducing development time by 25%.
- Implemented and optimized third-party APIs using Axios, improving website functionality and real-time data updates, reducing API response time by 15%.
- Optimized web application performance, boosting Google PageSpeed scores and reducing load times by 30%.
- Optimized version control workflows using Git, streamlining development workflows and collaboration, improving deployment efficiency by 35%.
- Coordinated with teams using Jira/Trello to ensure timely delivery and efficient sprint planning.

Kavara InfraTech

Frontend Developer (May 2022 – June 2023, India | Remote)

- Collaborated with development teams to resolve UI/UX issues, improving usability and accessibility. Resolved 50+ UI issues, leading to a 20% increase in user retention and 30% faster navigation times.
- Enhanced website aesthetics with user-centric design principles, leading to better engagement.

Amazon

Quality Specialist (Sept 2021 – May 2022, Hyderabad, India)

- Resolved critical issues in address, geocode, and route management to enhance last-mile

logistics efficiency.

- Executed comprehensive quality assurance processes, reducing operational errors by 20%.

DAV PG College

Lecturer (Aug 2016 – Nov 2017, Roorkee, India)

- Delivered interactive lectures on advanced physics

Education

KodNest, Bangalore

Full Stack Web Development

HNB Garhwal University

M.Sc. Physics (Electronics) (2016)

B.Sc. (Electronics) (2013)

Awards and Achievements

- Enhanced website performance, achieving a 30% faster page load time, boosting SEO rankings.
- Integrated and optimized 10+ third-party APIs across multiple applications, enhancing dynamic functionality and user engagement.
- Boosted website conversion rates by 20% through UI/UX optimizations.
- Delivered multiple projects on time, meeting key milestones and quality benchmarks.
- Enhanced mobile responsiveness, leading to a 20% increase in mobile user engagement.

Projects

- **PPLACD:** Developed a job portal using **React & Material-UI**, integrating **Redux** for **state management** and role-based dashboards. [visit website](#)
- **Nestohub.in:** Led 70% of the frontend development using React and **React-Bootstrap**, integrating APIs for dynamic content updates. [visit website](#)
- **Girnar Soft:** Contributed 80% to the frontend using **Next.js & Redux**, ensuring seamless UI interactions and performance. [visit website](#)
- **PG Dekho:** Built 60% of the frontend for a React-based rental platform, implementing real-time search with **API integration**. [visit website](#)
- **Quantmhill - IT Services:** Focused on UI creation and bug fixes for a **Next.js** project, ensuring smooth **API data flow**. [visit website](#)
- **SiriPay:** Developed the SiriPay user interface using Next.js and Material-UI, integrated **RESTful APIs** with **Redux** for efficient state management. [visit website](#)
- **Admin Dashboards:** Designed and developed **admin panels** for 4+ projects using **React, Redux,** and **Material-UI**, ensuring intuitive content management.
